Rome, 23 March 2011 – Today's meeting of the Board of Directors of ACEA SpA, chaired by Giancarlo Cremonesi, has approved the separate and consolidated financial statements for the year ended 31 December 2010, and the Report on Corporate Governance and the Ownership Structure.

The Board has also fixed the date of the Annual General Meeting (AGM), to be held in first call on 29 April 2011 and in second call on 30 April 2011, to approve the financial statements.

The Group reports a net profit of 136.2 million euros for 2010, before minority interest and the fair value loss on discontinued operations, and of 92.1 million euros after these items. This reflects a positive operating performance in a year marked by particularly challenging macroeconomic and business environments. Key performance indicators saw double-digit growth, with EBITDA rising 18.8% and EBIT up 71.7%. All areas of the business contributed to the improvement, as did the steps taken by management during the year to boost operating and financial efficiency.

"The Group achieved record EBITDA in 2010," commented Marco Staderini, CEO of Acea, "providing proof of how the actions taken during the year are contributing to the creation of value, and giving us confidence in our ability to meet the targets set out in the new Business Plan. As a result, we are in a position to pay shareholders an attractive dividend. We have delivered on our commitments to our customers and the market, and we have the financial firepower to take advantage of any opportunities that may arise".

"Acea experienced a year of intense activity that saw a number of important changes," noted Giancarlo Cremonesi, Chairman of Acea, "including the unwinding of the joint venture with GdF Suez, which, in any event, remains one of the main shareholders and with whom we will explore other forms of cooperation, above all in the water sector. The significant improvement in the Group's results is proof of the wisdom of our strategies and of our commitment to further boosting operating efficiency, increasing earnings and ensuring a stable financial structure. Moody's has only just recently assigned the Company an A3 rating in view of our solid business. As a result, Acea is one of a small group of European companies to receive ratings from three Agencies (Moody's, Standard & Poor's and Fitch), all in the single A bracket.

¹ Before minority interest and the fair value loss on discontinued operations related to unwinding of the joint venture.

The following results for 2010 include the contributions to the income statement and statement of financial position of the companies to be sold under the Framework Agreement entered into by Acea and GdF Suez Energia Italia in December 2010, for the purpose of unwinding the Joint Venture Agreement of 2002.

ACEA GROUP'S RESULTS FOR 2010

Consolidated revenue of 3,599.7 million euros is up 22.0% on the 2,951.3 million euros of 2009.

Consolidated **EBITDA** is up 18.8% to 666.5 million euros (560.9 million euros in 2009), thanks to the positive performances of all areas of business. Contributions to total EBITDA are as follows:

- Water 43% (42% in 2009);
- Networks 36% (40% in 2009);
- Energy 18% (13% in 2009);
- Environment 3% (5% in 2009).

The Group's **EBIT** is up 71.7% to 317.9 million euros, compared with the 185.2 million euros of 2009. The figure for 2009 was negatively affected by significant provisions needed to take account of revised estimates of liabilities linked to unforeseeable events in previous years.

Group net profit, before minority interest and the fair value loss on discontinued operations, amounts to 136.2 million euros (a loss of 47.0 million euros in 2009).

Income tax expense of 85.4 million euros is down 62.3 million euros on 2009. The reduction is primarily due to the fact that the figure for the previous year reflected a charge of 78.9 million euros relating to the so-called "tax moratorium" and the permanently non-deductible nature of certain provisions made in 2009.

The tax rate for the year is 38.5%, compared with a normalised tax rate (excluding non-recurring items) for 2009 of 42.9%.

Group net profit, after the fair value loss on discontinued operations and minority interest, amounts to 92.1 million euros (a loss of 52.6 million euros for 2009).

The fair value loss on discontinued operations (36.2 million euros) refers to the AceaElectrabel Produzione Group and, in accordance with IFRS 5, represents the difference between the agreed Equity Value of the assets to be transferred to GdF Suez and the net fixed assets constituting the discontinued operations consolidated by the Acea Group. Also in compliance with IFRS 5, completion of the unwinding of the Joint Venture in the Energy segment will result in a statutory gain for Acea SpA of approximately 70 million euros in 2011.

The Group's **investment** in 2010 amounts to 473.2 million euros, compared with 518.1 million euros in 2009. A breakdown is as follows:

- Water: 202.8 million euros (43% of the total);
- Networks: 161.1 million euros (34%);
- Energy: 48.7 million euros (10%);
- Environment: 48.5 million euros (10%);
- Parent Company: 12.1 million euros (3%).

Net debt of 2,203.7 million euros is in line with the 2,207.1 million euros reported at 30 September 2010 and up on the 2,129.6 million euros of 31 December 2009.

The net debt to EBITDA ratio has improved from 3.8x at 31 December 2009 to **3.3x** at 31 December 2010.

In view of the positive results achieved in 2010, the Group's solid financial structure, as confirmed by the ratings obtained, and in line with our dividend policy for the period prior to 2009, the Board plans to propose payment of an ordinary dividend of 0.281 euros per share at the AGM to be held in first call on 29 April 2011 and in second call on 30 April 2011. This represents a payout ratio of 65% on the basis of consolidated net profit and is in line with the Company's dividend policy. The Board also proposes to pay a special dividend of 0.169 euros per share.

SEGMENT INFORMATION FOR 2010

Water

EBITDA for the Water segment is up 18.7% from 249.7 million euros in 2009 to 296.3 million euros in 2010.

At 31 December 2010, the volumes of water invoiced by ATO2 – Central Lazio had reached 417.6 million cubic metres (417.5 million cubic metres in 2009), whilst the other areas of operation report a figure of 347.0 million cubic metres (330.5 million cubic metres in 2009).

Networks

The Networks segment reports EBITDA up 3.7% to 250.4 million euros (241.5 million euros in 2009).

At 31 December 2010, the amount of electricity injected into the network totalled 11,900.7 GWh (11,982.9 GWh in 2009).

Energy

The Energy segment reports a 59.6% increase in EBITDA to 121.3 million euros. The figure breaks down as follows:

- **Generation**: EBITDA of approximately 70 million euros.

Electricity output amounts to 15,651 GWh (including 689 GWh from hydroelectric plants, 14,876 GWh from thermoelectric plants and 86 GWh from wind farms), compared with 15,508 GWh in 2009.

- **Sales**: EBITDA of approximately 23 million euros.

Electricity sales amount to 19,623 GWh (up 15.0% on the 17,056 GWh of 2009), broken down as follows:

- enhanced protection market: 4,215 GWh (down 6.5% on the 4,506 GWh of 2009);
- free market: 15,408 GWh (up 22.8% on the 12,550 GWh of 2009).
- The Trading business recorded EBITDA of approximately 28 million euros.

Environment

The Environment segment contributed 23.1 million euros to the Group's EBITDA, marking a reduction with respect to the 30.7 million euros of 2009. This reflects the shutdown of the Terni plant in August 2010 whilst a revamp was carried out.

The San Vittore and Terni plants sold 111,166 MWh of electricity (140,747 MWh in 2009).

EVENTS AFTER 31 DECEMBER 2010 AND OUTLOOK

At a meeting on 25 January 2011, ACEA SpA's Board of Directors approved the Group's new organisational structure, which took effect from 1 February 2011. As a result, the CEO, Marco Staderini, has handed responsibility for operations to the General Manager, Paolo Gallo, whilst maintaining direct responsibility for the Group's strategic development.

On 28 January, Fitch announced that it had upgraded Acea's rating from A with a negative outlook to A with a stable outlook.

On 22 March Moody's assigned Acea Spa an A3 rating with a stable outlook.

On the same day, Standard & Poor's announced confirmation of the Company's A rating with a negative outlook.

At the end of 2010 the Acea Group approved the new Business Plan for 2011-2013, which will see the Group focus on running its core businesses, on its ability to create value through organic growth, by improving operational efficiency at all the various businesses and at the Parent Company, and on the development of strategic sectors.

In the Water segment the Group intends to strengthen its number one position in the Italian market, developing its businesses in the geographical areas in which we are already present and embarking on a large-scale investment programme (more than 200 million euros a year over the next three years) with the aim of boosting service quality.

With regard to Networks, Acea intends to strengthen its profitability in electricity distribution; improve service quality; develop innovative projects such as the "smart grid" and electric cars; and increase photovoltaic output in the Rome area (a goal of 62 MW by 2013). In 2010 the Company connected photovoltaic plants producing approximately 13.4 MWp to the grid, bringing the total up to 24.8 MWp. A further 11.8 MWp is currently in the process of being connected.

The Energy segment will be involved in unwinding the joint venture with GdF Suez Energia Italia. This transaction was finalised via the signature, in December 2010, of the Framework Agreement governing the terms and conditions of the unwinding.

On completion, Acea will assume full control of sales (AceaElectrabel Elettricità), two power plants (Tor di Valle and Montemartini) and all the hydroelectric plants formerly belonging to AceaElectrabel Produzione.

In addition, Acea will have an irrevocable and unconditional option (exercisable by 30 September 2011) to enter into a five-year electricity supply contract with GdF Suez, worth 5TWh per annum.

The Group's strategy in the Energy segment will focus on: energy sourcing policies designed to provide adequate coverage and preservation of commercial margins; optimization of the customer mix; boosting the efficiency and effectiveness of energy sales; the development of dual fuel offerings and of sourcing & trading capabilities; the revamp of the Salisano and Orte hydroelectric plants.

Finally, the Company intends to focus particular attention on expanding its Environment business, which we believe has "high potential". The Group aims to increase the installed capacity of its plants to 62 MWe by 2013.
